

Forecast Wall C7 – Quick Edit Cheat Sheet

Most Common Tasks

Task	Where to Edit	What to Do
Add a Map	walls/radar.js (or other wall file)	Add row: ["Title","ImageURL","Title","ImageURL"]
Edit Map	walls/<wallname>.js	Change the image URL or title text
Add New Wall	walls/newwall.js	Create new file and add buildWall(...) structure
Add Wall to Navigation	wallconfig.js	Add: {id:"newwall",name:"New Wall"}
Link From Main Site	index.html	Link to forecastwall/opswall.html?wall=wallname
Change Layout	opswall.html	Edit CSS or layout code (rarely needed)
Update All Walls	wallconfig.js	Navigation auto-updates once added here

Map Row Format

```
[ "Map Title", "ImageURL", "Map Title", "ImageURL" ]
```

Example

```
[ "CONUS Radar","https://radar.weather.gov/...", "Regional  
Radar","https://example.com/radar.png" ]
```
